Company at a Glance

- Providing dental benefits to individuals, families, and businesses for over 60 years.
- Quality dental plans with affordable rates, vast networks, and superior customer service.
- Claims paid within days – not weeks – and a live person is ready to help you when you call.

Network Summary

Exchange products are PPO-only. Members must see a Delta Dental PPOSM provider. Our PPO network includes more than 2,200 PPO providers: general and pediatric dentists as well as other dental specialists.

Dental Company Profile

Unique Offerings and Programs

Delta Dental of Colorado has been providing the dental benefits for the Child Health Plan Plus (CHP+) program since 2002. Since that time, we've helped more than 300,000 children get access to dental care.

Delta Dental's myDentalScore is an online risk-assessment tool that evaluates our members' dental health. Members receive a personalized, easy-to-understand oral health report that tells them exactly where they stand for risk of tooth decay, gum disease, and oral cancer. They can share this report with their dentist.

We know that better oral health leads to better overall health. Our members can get dental health and wellness information at www.DeltaDentalCO.com.

Awards and Recognition

Recent awards include:

- United Way Champion of Hope Award
- Colorado Women's Chamber of Commerce Medium Business of the Year
- Colorado Biz Top Company: Healthcare
- University of Colorado Creating Futures
- Colorado Philanthropy Day: Outstanding Small Business
- 2018 Business for the Arts Award

In The Community

Oral health impacts Coloradans of all ages and, at a broader level, this affects the well-being of our communities. Since dental disease is almost 100 percent preventable, we believe our community efforts to improve oral health for everyone will result in a healthier Colorado.

For more than 20 years, Delta Dental of Colorado Foundation has been working to make good oral health a community priority. Our new mission is to elevate the well-being of Coloradans by advancing oral health equity. Working with communities, we can strengthen opportunities for people that have historically been overlooked. We are improving access to comprehensive oral health care, promoting systems and support services that prevent tooth decay, and emphasizing the vital connection of oral health to systemic health.

We envision a world where everyone understands that oral and overall health are connected. Everyone is welcome in this work. Through listening and partnering, we can create more ways for the people of Colorado to achieve their best health.
